Developer Tools: Git, Github, Docker, VS Code, PyCharm, Postman

EXPERIENCE

Web Development Cadet

Dec 2024 – Present

Google Developer Groups on Campus PUP

Polytechnic University of the Philippines - Manila

- Actively participated in webinars focused on web development technologies and best practices.
- Currently developing expertise in both front-end and back-end technologies to achieve the goal of becoming a full-stack developer.
- Engaged in coding challenges and mentorship sessions to enhance problem-solving and development skills.

Project Manager

May 2024 – June 2024

App Development Project

Polytechnic University of the Philippines - Taguig

- Leading a project to develop a job/hustle hunt application for students on campus.
- Utilizing Angular for front-end development to create a responsive and user-friendly interface.
- Implementing backend functionalities with PHP and MySQL to ensure robust and secure data management.
- Facilitated communication between team members to align project objectives and deliverables.
- Oversaw the entire project lifecycle from planning and development to testing and future deployment.

Technical Lead

December 2023 – January 2023

Web Development Project

Polytechnic University of the Philippines - Taguig

- Led a team in developing an eCommerce (Seller side) web application from concept to deployment.
- Designed and implemented user interfaces using HTML, CSS, JavaScript.
- Developed server-side functionality using PHP and integrated MySQL databases.
- Created and consumed REST APIs to ensure seamless integration with external services.
- Collaborated with cross-functional teams to align project goals and deliverables.

CAPSTONE PROJECT

Barangay Information System / *React.js, Laravel, MySQL, AWS Lightsail Services*

- Led the development as Technical Lead, overseeing both frontend and backend to ensure seamless integration and performance.
- Designed and implemented key modules, including Resident Management, Document Request, and Blotter Management, optimizing data handling and user experience.
- Collaborated with stakeholders to gather requirements, translating them into scalable and maintainable system architecture aligned with barangay needs.
- Provided technical guidance and mentorship to team members, conducting code reviews to uphold high coding standards.

EDUCATION

Polytechnic University of the Philippines – Taguig

2021 – Present

Bachelor of Science in Information Technology
